Climate change Wikipedia

October 14th, 2018 - Climate change is a change in the statistical distribution of weather patterns when that change lasts for an extended period of time i e decades to millions of years Climate change may refer to a change in average weather conditions or in the time variation of weather within the context of longer term average conditions

Earth Transformed William F Ruddiman 9781464107764

September 23rd, 2018 - Written for a broad audience this is a very effective exposition of an interesting hypothesis put forward several years ago by the author Ruddiman argues that major anthropenic effects on the climate system system started millenia ago with the spread of agriculture

Earth s Climate Past and Future William F Ruddiman

September 24th, 2018 - This book is a must read for anyone who wants to have a solid understanding of past climates It is thorough and engaging Although designed presumably for college students I enjoyed reading it as faculty to deepen my understanding of the factors that control climate variability especially plate tectonics and associated chemistry

U S News Latest National News Videos amp Photos ABC

October 9th, 2018 - San Francisco is testing an alert system that stops trains before the shaking
